Trip Lightly.

Trip lightly over trouble; Trip lightly over wrong; We only make grief double By dwelling on it long. Why clasp woe's hands so tightly ? Why sigh o'er blossom's dead? Why cling to forms unsightly: Why not seek Joy instead !

Trip lightly over sorrow Though this day may be dark, The sun may shine to-morrow, And gaily sing the lark; Fair Hope has not departed; Though roses may have fied; Then never be down-hearted, But look for joy instead !

You appear to be basking in the sunshine of fortune-I am shivering in the shade of adversity .-You, who speak with the thunder of Demosthenes and the lightning of Cicero, how can you see a poor man go without a shirt, or a s'xpence to buy grog with ?"

OTA few Sabbaths since, a teacher of a Sunday school was engaged in questioning his pupils upon a subject connected with their previous studies in the Bible. At last turning to a young Irishman, he asked, "Whatdid Adam lose by the fall ?" Pat, for a few moments, was apparently in a brown s. w. AYER'S Ague Cure

Intermittent Fever, or Fever and Agu Remittent Fever, Chill Fever, Dun Ague, Periodical Headache, or Bilio Headache, and Bilious Fevers, inde for the whole class of diseases orig nating in biliary derangement, cause by the Malaria of miasmatic countrie No one remedy is louder called for by t necessities of the American people than a su and safe cure for Fever and Ague. Su-we are now enabled to offer, with a perfe-certainty that it will eradicate the diseaand with assurance, founded on proof, th

no harm can arise from its use in any qua That which protects from or prevents th disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system and prevents the develop-ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever AND AGUE prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Internattents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects

whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fever and Agae is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which ere Neuralgia, Rheumatism, Gout, Headache Blind less, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysteries, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodcal. This "Cune" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infeetion, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more

Ayer's Cathartic Pills, FOR ALL THE FURPOSES OF A FAMILY PHYSIC, ere so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with main or physical debility is astonished to find his scalch or energy restored by a remedy at once so simple and invit Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. DR. J. G. WILLIS, DENTIST,

WOULD respectfully inform the citizens of this and adjoining counties, that he has not given up the practice of DENTISTRY, as has been reported; but that he is still prepared to perform any operation in DENTISTRY, which may be entrusted to him, in the kighest style of the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many infetior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
